Task forces may be created, upon mutual consent, to discuss specific competition policy and law topics suggested by Participants. A task force meeting may be held in parallel with the regular meetings or organised separately subject to agreement of the Participants.

5. Exchanges and collaboration activities related to competition policy and law will be conducted between the Participants, which include:

- (i) exchanges on key developments regarding competition policy, competition legislation and competition enforcement in each Participant's jurisdiction;
- (ii) technical cooperation on implementation of competition policy and law to enhance capacity building of the Participants. This may include field visits, secondment of staff, experience sharing and other similar activities;
- (iii) training sessions, seminars, conferences and other similar activities related to competition advocacy to increase awareness of competition policy and law among businesses, government agencies and the general public in the Greater Bay Area. The audiences may include government officials and representatives from the business sector, the legal sector, the academia.

6. An annual work plan with more detailed arrangements related to the foregoing activities will be formulated and carried out upon discussion and mutual consent by the Participants. It is subject to amendments when necessary.

7. A contact point will be designated by each Participant to facilitate the implementation of this MOU. Communications between the Participants could be made by phone calls, emails, video conferences, meetings or other means, as appropriate.

8. Participants may invite representatives from relevant bodies in Macao to attend foregoing activities.

III. Nature of Exchanged Information

9. Nothing herein shall constitute a mandatory requirement for a Participant to exchange information which is deemed confidential by it or the other Participant.
